

I am writing concerning the FCC's possible expansion of LPFM stations and the effect on services such as K-LOVE, which is often heard on FM translators. K-LOVE is very important to our community. It is one of the only stations offering clean, uplifting family programming. A great number of people in our community listen to K-LOVE, and as it is completely listener supported, it shows that the service K-LOVE provides is both in the public interest and important to the communities where it is received. This station is a positive influence on our children, families and communities. Please recognize the great positive contribution they make and the unique programming that they provide!!!!  
contribution

community support this station. Since K-Love is listener supported
